iPlug

600-800 VA single-phase

iPlug 600-800 VA

The **iPlug** series is the ideal solution for household, and small home office systems. Its compact size and versatility - push-button operation, LED status panel and user-replaceable batteries - make **iPlug** easy to install within a domestic environment to protect systems from surges and blackouts. When mains power fails the load is powered by the inverter and built-in battery. **PowerShield³** UPS monitoring and control software (available for download from www.riello-ups.com) can be used for an orderly unattended shutdown of IT systems.

LOAD CONFIGURATOR
