DECLARATION ABOUT RESULTS OF UN TESTS

We, hereby confirm that Lithium-Ion Battery Pack type:

BP-LIO-1525
Bicker Elektronik GmbH

Has successfully passed the following tests executed in the independent, accredited laboratory, according to the Recommendations on the TRANSPORT OF DANGEROUS GOOD, Manual of Tests and Criteria, cl. 38.3, UN ST/SG/AC.10/11/Rev.6, Amendment 1.

No	Test Item	Criteria	Result
T1	Altitude Simulation	No mass loss, leakage, venting, disassembly, rupture and fire. OCV should not be less than 90% before testing.	✓ passed
T2	Thermal Test	No mass loss, leakage, venting, disassembly, rupture and fire. OCV should not be less than 90% before testing.	✓ passed
T3	Vibration	No mass loss, leakage, venting, disassembly, rupture and fire. OCV should not be less than 90% before testing.	✓ passed
T4	Shock	No mass loss, leakage, venting, disassembly, rupture and fire. OCV should not be less than 90% before testing.	✓ passed
T5	External Short Circuit	External temperature should not exceed 170°C. No disassembly, rupture and fire within six hours of this test.	✓ passed
T7	Overcharge	No disassembly and fire within seven days of this test.	✓ passed
